

Good practice examples

Professional Identity

Title:

Article: The Reflective Teacher and Researcher

Purpose:

The purpose of the article is to strengthen teachers' professional identity by creating conditions for deep learning and reflection on practice. The aim is to achieve a new professionalism based on integrity, contextual understanding, and a strong sense of purpose and fulfillment in the teaching profession.

Short description:

This model focuses on the teacher as a reflective practitioner and creator of pedagogical concepts. It promotes continuous professional and personal growth through action research and self-inquiry, helping teachers connect their moral purpose with professional expertise.
