Title:

Podcast: Using Artificial Intelligence in Teacher Training

Purpose:

The purpose of this episode is to show the potential of Artificial Intelligence (AI) in teacher training.

Short description:

In this episode, host Benjamin Hertz is joined by Arjana Blazic, a teacher trainer and technology consultant from Croatia, and Andreas Galanos, a secondary school teacher from Greece specializing in Ancient and Modern Greek, Literature, and History. Together, they delve into the effective use of AI as a tool for teacher trainers.

Focussing on the trainer's perspective, this podcast offers educators actionable ideas for integrating AI into their training practices.
