

Good practice examples

CPD Design Elements

Title:

ICT Resources

Purpose:

The purpose of the ECML ICT Resources page is to support educators in integrating digital technologies effectively into teaching and learning. It provides access to carefully reviewed tools, open educational resources and practical guidance. The aim is to help teachers choose and use technology in ways that enhance communication, collaboration, creativity and digital literacy in education.

Short description:

Developed through the ICT-REV initiative, this resource hub offers reviewed ICT tools, pedagogical guidance and activity ideas to help educators effectively integrate technology - including AI-enabled applications - into application.
